#### THE ENGLISH VERMIN-DESTROYER, Warranted superior to any other in use for destroying Roaches, Ants, Bedbugs, Fleas, And all kinds of Bugs and Worms.

This article, being in a liquid form, can be easily applied to Bedsteads, or wherever it is required, with a feather or brush, leaving no disagreeable smell whatever in the rooms—which renders this article more desirable in use, as well as superior to any other.

Wainscots, Bedsteads, Fire-places, &c., anointed with this article, will ever after be cleaned of Bugs or Worms, as it is so strong and poisonous to these noxious animals as to cause them to fall dead from Bedsteads, &c., when running over parts where this Liquid has once been applied. This is also one of the best articles ever introduced into this country for destroying

## Christeghine avera Demorses Invicorating cordial

TOR GENITAL BEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands univalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRUDUTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD, and MIND OMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Sensual Excesses or evil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

Dik. MORSE'S INVIGORATING CORDIAL has cured, and is coustantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate aufferer, as

is constantly curing, these complaints—relieving the state and bodily incapacity of the unfortunate sufferer, following testimony of the names received will conclude the sufferer.

mental and bodily incapacity of the unfortunate sourcer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS

Young Men especially, who have become the victims of Solitary Fice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE. TAKE PARTICULAR NOTICE

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that scoret and solitary habit, which ruin both body and mind, unfitting them for other business or science.

habil, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Norvous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Heas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsis, Indigestion, deraugement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to Society. NERVOUS DEBILITY.

from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emachated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a wary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes bilghted with our own. Let no false delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared regain and again before the public, is a sufficient guarant that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

TAKE NOTICE. It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fall to fall into the hands of those imprudent, hoasting impostors—individ-nals destitute of knowledge, name, and character—pediars, shoemakers, mechanics, &c., advertising themselves as phy-steians; ignorant quacks, who keep you trifling month after month, as long as poseible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertise, for he alone can cure you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office. Weakness of the Organs immediately cured, and full vigor restored.

Minister to England. Extract of a letter from a Baltimorean to a friend in this

In the event of the resignation of Mr. Lawrence, our present Minister to England, it behooves us to look with unusual interest to his

The relations between these two great nationstheir progress and developments, their various and often conflicting interests, and their mighty march in the great work of civilization, which will be the monuments of their renown in after ages--call upon us to manifest our character as a nation in the person of our representative at the Court of St. James.

There is an epoch in our national history, at this moment, which seems imperiously to demand a contribution of the qualities of the illustrious men whose names adorn our country-names which are associated with all that can elevate us politically, morally, and socially.

Hence we hold such men as national property, nd feel that we may be pardoned for any seeming infringement upon personal rights in the suggestion of the claims which we consider the whole country to have invested in them.

It is therefore with pride and pleasure that we ecur to those of the Hon. Thomas Corwin, our tion to this effect.

The President would doubtless be reluctant, as he should be, to dissolve a connexion in the Cabinet relation which has so eminently contributed to the glory and success of his administration.

But we see no man within the limits of the Union, of any party, who would command the more entire confidence of the country, inspire more assured hope at home or a higher appreciation abroad, or shed more lustre upon the honor and renown of the American name, than Secretary Corwin. And whilst his acceptance of this position would be most gratifying to the party to which he belongs, he could not but receive the approval and commendation of the en-

The Wages of Clerks in the Departments.

A writer in the Intelligencer says: "It is gratifying to observe that the subject of which would seem to argue a favorable result. Members of both houses of Congress have sought information through various channels respecting the condition of the clerks, their duties, amount

of compensation, &c. "These gentlemen begin to see very clearly that it is impossible for a man with a family to get along upon the present salaries, under the exsting high prices of living and house rent. They too are not unaware that their own presence (during the session of Congress) adds not a little to the expense of living at the seat of govern-ment. There are many reflecting, calculating, experienced gentlemen among the members of both houses;—ay, and a large proportion are gen-tlemen of generous impulses, who are not unwil-ling to add their mite of influence in furthering the interest and meliorating the condition of the government clerks. The members of both houses are liberal to their own employes; it is creditable to their hearts and understanding. We have no objection to it. But let the same generous spirit be extended towards the rest of the great family of clerks, who are laboring constantly for

the good of the public service." Upon this the editors of the Intelligencer re-

mark: "We should do injustice to our knowledge and estimation of the valuable and respectable class of public servants to which the above article refers, if we permitted it to pass into our columns without a word from ourselves in its favor. There is no branch of the public service on which higher responsibilities devolve, and in which intelligence, fidelity, and experience are more requisite; and yet there is not one whose duties are less adequately requited. The drudgery of their labor is not cheered by the honors and dis tinctions which incite and reward other branches of service. The recompense of their toil is merely bread. Should that be given with stinted

hand ? We approve most heartily the sentiments and ecommendations above expressed; and trust that Congress may disregard the effect of seeming economy, and act upon the just and generous impulses that influence the decisions of its mem-

We witnessed many incidents during our recent trip to Niagara, that demonstrated the strong current of popular feeling in favor of Gen. Scott. The fact is undeniable that thousands, and tens of thousands, among those who have heretofore been led to vote with the locofoco party, will

now vote for Gen. Scott. We saw several striking instances of this feeling during our recent trip. On Tuesday morn-ing, as the Northern Indiana was approaching Buffalo, with at least 1,500 people on board, there were much enthusiasm and several speeches. One of the speakers said that a large number of Democrats had come out boldly, and declared they should vote for Gen. Scott. Near the outside of he crowd was a disconsolate-looking locofoco, who attempted to keep his spirits up by getting into a controversy. He declared that this assertion was false—that they could not point out a

Democrat who would vote for Scott. This was bringing matters to a test. Instantly, an Irishman from Cleveland, a heavy contractor, and one who wields a very large influence, mounted the chair and informed the gentleman that he was one of that class-that he had always been a Democrat, and that he should vote for Gen. Scott. He wanted to know what Mr. Pierce had ever done, that anybody should vote for him! He gave the locofoco challenger a regular Irish broadside of eloquent talk. No sooner had he closed than another Irishman mounted the stand, and declared that he was a Democrat, and hould vote for Gen. Scott. The huzzas that followed this announcement had scarcely subsided when a third Irishman mounted the chair, and, shaking his fist in an excited manner at the locofoco Pierce man, said, "I, too, shall vote for Gen. Scott. I have always been a Democrat, and am as good-looking a man as you are, any day.
